Module code	PSYON707
Module title	Mental Disorder and Crime
Level	7
Credit value	15
Faculty	Faculty of Social and Life Sciences
Module Leader	Prof Iolo Madoc-Jones
HECoS Code	100387
Cost Code	GAPS

Programmes in which module to be offered

Programme title	Is the module core or option for this programme
MSc Forensic Psychology	Core

Pre-requisites

None

Breakdown of module hours

Learning and teaching hours	15 hrs
Placement tutor support	0 hrs
Supervised learning e.g. practical classes, workshops	0 hrs
Project supervision (level 6 projects and dissertation modules only)	0 hrs
Total active learning and teaching hours	15 hrs
Placement / work based learning	0 hrs
Guided independent study	135 hrs
Module duration (total hours)	150 hrs

For office use only	
Initial approval date	18.5.21
With effect from date	September 21
Date and details of revision	
Version number	1

Module aims

To critically explore the nature of mental disorder; the relationship between mental disorder and crime, and the challenges that arise from the legal framework for managing mentally disordered offenders.

Module Learning Outcomes - at the end of this module, students will be able to:

1	Critically analyse the relationship between mental disorder and crime
2	Provide a critical historical account of how mental disorder has been identified and managed
3	Critically assess the processes and the challenges associated with identifying and managing mentally disordered offenders

Assessment

Indicative Assessment Tasks:

- Essay (1000 words): Students to critically explore the link between mental disorder and crime
- Report (1000 words): Students to critically assess developments in the treatment of mental disorder
- Case Study (2000): Students to critically explore the challenges associated with identifying and managing a specific case of a mentally disordered offender.

Assessment number	Learning Outcomes to be met	Type of assessment	Weighting (%)
1	1	Written Assignment	25%
2	2	Written Assignment	25%
3	3	Written Assignment	50%

Derogations

None

Learning and Teaching Strategies

The overall learning and teaching strategy will include a series of lectures with accompanying media devices. There will be a mix of supporting notes/along with directed study for students to complete as they work through the material and undertake the assessment tasks. The use of a range digital tools within the virtual learning environment together with additional sources of reading will also be utilised to promote breadth and depth of learning.

Indicative Syllabus Outline

- Classification systems (DSM, ICD)
- Major illnesses and personality disorder
- Forensic processes and assessment
- Pharmacological treatments
- Correlates of mental disorder
- Mental Health Acts
- Bedlams and Asylums
- Health and legal provisions (incl. Community Treatment Orders)
- Mental disorder and the secure estate

Employability skills – the Glyndŵr Graduate

Each module and programme is designed to cover core Glyndŵr Graduate Attributes with the aim that each Graduate will leave Glyndŵr having achieved key employability skills as part of their study. The following attributes will be covered within this module either through the content or as part of the assessment. The programme is designed to cover all attributes and each module may cover different areas.

Core Attributes

Engaged
Enterprising
Ethical

Key Attitudes

Commitment
Curiosity
Resilience
Confidence
Adaptability

Practical Skillsets

Digital Fluency
Organisation
Leadership and Team working
Critical Thinking
Emotional Intelligence
Communication
